

CONICAL SAMPLING KIT

(ABSG-019C - 25mm)

BISSON
THE PIPE FITTINGS EXPERTS

Used when sampling is required in a chill or coldstore. The conical head prevents ice or condensation from covering the sampling hole.

Installation Instructions:

Use the correct solvent Plusbond 3019. Do not paint. Keep pipe clean and free from dust. Do not install in direct sunlight. Only install with approved pipe. Do not use solvents to clean, only soapy water.
